MINES AND MINING.

GREAT INTEREST TAKEN IN THE LOS ANGELES EXPOSITION.

The Road District—State Range. Ballarat's Large Gold Output. Strikes in the Jerome District—Big Deal—Pine Valley Mines—Lower California—Mining Notes.

The interior newspapers of Southern California and those of Arizona are taking a great and active interest in the Los Angeles Mining and Industrial Exposition, which opens in this city on February 15. The Santa Fe, Southern Pacific, California Eastern and other railroad companies have informed the Mining Committee of the exposition of their willingness to bring in free of charge all ores for exhibit, and Wells-Fargo Express Company has also stated that it would bring in without expense all specimens of ores and mineral collections that are too valuable to send as freight. The New Era of Peris, Riverside county, Cal., publishes an article advising the calling of a meeting of miner owners of the district for the appointing of a committee to collect material for an exhibit. The Mojave County Miner of Kingman, Ariz., states that at a meeting of the committee of the change of the district it was agreed to proceed at once with the matter of an exhibit, and specimens of ores will be collected from all parts of the district which will be numbered and catalogued. The Board of Trade of Kingman has appointed G. W. Beecher and Anson H. Smith to collect specimens of ores and data of all the mines in the district, and who will accompany the exhibit to Los Angeles. Mineral Wealth, of the same city, says that ores are being gathered for the Los Angeles Exposition, and then goes on to say: "Los Angeles capital has done wonders for the mines of this locality. Let us give them the ore." Law E. Aubrey, one of the members of the Mining Committee of the exposition, went to Kingman and Chloride last week and explained to the mining men of those towns the object and scope of the exposition. He will visit some of the larger mining camps in Southern California for the same purpose. The demands for space for mining machinery and for mineral exhibits indicate that the mining department of the exposition will be a great success, and an excellent and profitable object lesson to visitors of the mining resources of this great southwestern region.

THE RAND DISTRICT. In the new well that the Yellow Aster Company is sinking eight miles from Randburg, the water has risen forty feet, and is coming in so fast that new pumps will have to be ordered to permit of deeper sinking. This is as important as would be the striking of a new vein of rich ore, as it will give the company all the water it can make use of, and permit it to increase its stamp capacity from thirty to sixty tons, thereby doubling the quantity of ore it is now daily milling.

As evidence of the quantity of ore milled at custom mills in Randburg last year, it may be stated that the Rand Dog milled one million six hundred and thirty thousand tons of ore, not including the amount secured from the tailings by cyanide process, and this was on a twelve-hour run a day. Hereafter the mill will be kept going throughout the twenty-four hours.

The new tunnel mill at the Pineview mine will be ready for work about the end of next week.

SLATE RANGE. Born is the name of a new postoffice town in the Slate Range district north of Randburg. It is the center of a large and rich mining field. Good reports continue to come in from the Panamint country, north of the Slate Range. The new tramway for the Ratcliff mine is nearly finished. When it is the mill will be started on work. On the World Bester and Cooper mines the mill is kept steadily at work, and the new mill at Mineral Hill is nearly completed. With these mills all going, together with the others which have been in operation, it is estimated that the gold output of the Rand district will be quite up to \$100,000 a month.

STRIKES IN JEROME DISTRICT. The Prospect of Prescott, Ariz., reports three strikes lately made in the Jerome mining district, one in the United Verde, Junior, which is expected to yield a large body of sulphure ore in the upper level; one in the Nautical group, in which a large body of copper ore was uncovered, and one in the Black Hills.

BRITISH COLUMBIA DEAL. The Vancouver, B. C., newspapers report the consummation of one of the biggest mining deals in that province, being the sale of the White Horse group of copper mines to a party of eastern men for the sum of \$75,000. This property has produced a large quantity of ore and it is expected active work on it will be at once resumed.

FINE VALLEY DISTRICT. The Santa Diego Union prints a report from the Pine Valley district, San Diego county, of considerable mining work being done there. Three mines belonging to Noble Bros. are being worked, and an option for the purchase of them has been given for three months. Work on them will be resumed, and at the end of the three months the bond is renewable on the payment of \$1000.

SOUTH BISBEE MINES. At the annual stockholders' meeting of the South Bisbee Copper Company, lately held at Bisbee, Ariz., where the mines of the company are situated, the following directors for the present year were elected: John A. Fairchild, E. W. Gilmore, Peter Weidner, T. E. Brown, H. W. Lewis, C. B. Jones, W. F. Buttsford, all of Los Angeles, and Peter Johnson of Bisbee. The report submitted stated that the drift running north on the 700-foot level considerable ore and ledge matter have been encountered. A drift of the 600-foot level, where there is a considerable body of ore, was ordered started. The survey of the drift was completed, and an option for the purchase of the company is being made.

SAN DIEGO MINES. The Owens mine, which was bought by Dents Clark some time ago, has twenty-five men at work, and the mill is kept busy. On the Ready Relief mine a shaft is being sunk by Bailey Bros. Development work is being pushed on the Kentucky S. mine as Banner. The tunnel which is being run to connect with the main shaft is in over 800 feet. A compressed air drill is being used in the work.

IN LOWER CALIFORNIA. Advances from Escondido indicate a very considerable amount of mining being done in the northern district of Lower California. From the Escondido mine thirty men are employed, and a tramway three-quarters of a

mile in length is being constructed to convey the ore from the mine to the two-stamp mills which have been recently erected. At the Real mine a roller mill has been put up, and at the Virnaga a large force of men is employed.

SMELTERS GOING UP. The San Francisco Chronicle, speaking of the smelting plants now in course of erection in California and others, the construction of which is contemplated, says: "The copper developments in Fresno county are reported to be so good that the Democrat of Fresno, who is a smelter, will be established in that neighborhood at an early date. One or more smelters are also to be built in Los Angeles county at an early date. Others are to be erected on the desert. In Shasta county preparations are being made for the erection of a big smelter to handle the output of the Bully Chooop mines, which have passed into the possession of Capt. Delamar as the result of a trade made several months ago, in which the cash consideration was the sum of \$250,000. Then, again, a smelter has been planned for the Mammoth mine in the same county, and a British Columbia syndicate last year bought a very valuable copper deposit in Shasta county, and a smelter will be erected as soon as the property has been opened up so that a sufficient quantity of ore to feed it can be relied upon."

MINING NOTES. The big concentrating mill which was started at the mill of the Pinos Altos Gold Mining Company, New Mexico, two weeks ago, is now turning out a product of seventy tons of rich concentrate every day. The Jerome (Ariz.) Reporter says the Tonto Basin country is fast coming to the front as a mining region. Over three hundred men are now mining in the section between Globe and Payson. It is estimated that nearly \$200,000 has been paid as purchase price for mines in the immediate vicinity of Globe, Ariz.

The Mount Morgan (Queensland) mine's new dam on Limestone Creek holds 200,000 gallons.

The Dexter mine at Tuscarora, Nev., produced 100,000 tons last year.

The Colorado (Nev.) News says some very rich ore is being taken from the lower levels of the Adair mine, and both of the ore bins at mine and mill are again full.

Only four days of sinking was done in the Butte (Mont.) mine during last year, as compared with 5000 feet in 1898. The Colorado Springs (Col.) Enterprise says the Colorado Springs mine has increased its membership from \$5 to \$10 at the rate of \$2000 per year, thus placing \$40,000 in its treasury.

The Riverside (Cal.) Enterprise says the Nevada mine has temporary improvements were awarded to the mine.

A dinner party was given Friday by Mrs. T. M. Joseph of Bonnie Brae street, in honor of her mother, Mrs. Martha Downham. The following guests were present: Mrs. Lovell, J. S. Rucker, Sam. Parson, Maria Ray, Rucker, Sweetner, Downham, Schwalitz, Joseph.

NOTES AND PERSONALS. Mrs. John W. A. Off has issued invitations for Tuesday afternoon, February 12, at 2 o'clock, at her home, No. 2615 South Figueroa street, for a reception in honor of her mother, Mrs. Martha Downham. The following guests were present: Mrs. Lovell, J. S. Rucker, Sam. Parson, Maria Ray, Rucker, Sweetner, Downham, Schwalitz, Joseph.

A common experience of contractors was illustrated some time ago when Mr. J. M. McCormick, of the McCormick's camp at Ellwood, arrived at 5:30 p.m., ate their supper, and went to work their three support. The others did not want work. The probability of the men who were into this city, were arrested once or twice for vagrancy, and finally went to Los Angeles, where they were held in the city jail.

William H. McKee, chief accountant for Grant Bros., arrived here last evening, and is expected to stay at the hotel. The stock will arrive here shortly for the Grants and the force at their camp will go up to 100 men. McCormick's camp is now commencing the establishment of a camp at El Capitán, where 100 men will be needed. All stories that men cannot get work on the railroad are unfounded. Most of the men who are working so through the "commorant" saloons along the "gap," because they do not like employment.

SANTA BARBARA BREVITIES. The Board of Supervisors has called for bids for the steel work of a new county jail. The contract is expected to be awarded to the firm of J. H. B. & Co., probably cost between \$14,000 and \$15,000.

An election contest between James F. Tryce and Caesar Saltillo, both of this city, over the office of Councilman from the Third Ward, came up in the Superior Court this morning. Tryce claims that he was "done out" by his opponent, who is charged with marking, by one of the election officers, of ballots of a number of illiterate voters. Testimony was introduced by the prosecution relative to a case of the disputed marking of a particular ballot. The witness swore that his ballot was wrongly marked; that he discovered the fact, and calling for a clean ticket, marked it himself after a sample ballot, and voted it. The case will probably continue throughout the week.

A man named Henry Tio of Ventura was brought to this city last night from the Clifford More Ranch, where he had broken his leg. He was holding cattle and his horse fell with him in crossing a gulch.

WILMINGTON. **GEOLOGICAL SPECIMENS.** WILMINGTON, Jan. 30.—(Regular Correspondence.) Promer & Co., of Compton, who are sinking wells for the Banking Company, are down 300 feet on the first one, and have been bringing up some interesting specimens for the geologist. At 275 feet they struck the pre-historic beach and brought up beach pebbles and a quantity of sea shells in an excellent state of preservation.

WILMINGTON BREVITIES. The Fresia Club gave a social dance at Wilmington Hall last Wednesday evening. The dance was a success.

Rev. Curran, rector of St. Peter and St. Paul's Catholic Church, was taken sick Sunday morning, and is expected to be in the city for a few days. During his absence Bishop Montgomery will officiate in the parish.

(Philadelphia Record.) Sunday-school Teacher (in Chicago.) Why did the wise men come from the East? Bright School. Because they were wise men.

Advances from Escondido indicate a very considerable amount of mining being done in the northern district of Lower California. From the Escondido mine thirty men are employed, and a tramway three-quarters of a

Events in Society.

Communications intended for the society columns of The Times must be signed, and be written on only one side of the page. Anonymous communications will not be published, and those which are too long or too short, or which are not of general interest, will be rejected. The society columns will be published in the evening edition of the paper, and will be written in the same style as the other columns.

Miss Ethel Bernard of St. Joseph, Mo., who is visiting her sister, Mrs. A. G. Wells of West Twenty-eighth street, will be the recipient of considerable social attention during her stay in this city. This afternoon Mrs. Wells will give a violet luncheon to fifty guests in her honor. After luncheon the company will be entertained with music. Thursday Mrs. Harry Gray of West Seventh street will entertain at dinner for Miss Bernard. She will be the guest of honor at a card party to be given by Miss McGowan Friday evening at the Abbottsford Inn, and Mrs. Willoughby Rodman will give a luncheon Saturday afternoon at her home on Orchard avenue. Several smaller entertainments, such as large and box parties, and a number of informal receptions, dinners and luncheons will be given for Miss Bernard while in the city.

Mr. and Mrs. Howard M. Sale of South Hill street, gave a surprise birthday evening for Mrs. Sale yesterday evening by entertaining about twenty-five friends at a card party at their home on South Hill street. The affair was very informal, and the guests were entertained with cards, dancing, and a Dutch supper. The rooms were artistically decorated with flowers, and the evening was a very pleasant one.

Miss Beulah George was the recipient of a pleasant surprise party yesterday evening, the occasion being her nineteenth birthday. The guests were Mrs. J. T. George, her mother, Mrs. J. T. George, her father, and a number of friends. The evening was devoted to games, followed by refreshments.

The Qui Vive Club met at the home of Mrs. J. T. George on South Hill street, Monday evening. The affair was a very informal one, and the guests were entertained with cards, dancing, and a Dutch supper. The rooms were artistically decorated with flowers, and the evening was a very pleasant one.

The Lobster Whist Club was entertained at a surprise party by Mrs. J. T. George on South Hill street, Monday evening. The affair was a very informal one, and the guests were entertained with cards, dancing, and a Dutch supper. The rooms were artistically decorated with flowers, and the evening was a very pleasant one.

A dinner party was given Friday by Mrs. T. M. Joseph of Bonnie Brae street, in honor of her mother, Mrs. Martha Downham. The following guests were present: Mrs. Lovell, J. S. Rucker, Sam. Parson, Maria Ray, Rucker, Sweetner, Downham, Schwalitz, Joseph.

CATARRH OF THE STOMACH.

A Pleasant, Simple, but Safe and Effective Cure for It.

Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloated sensation after eating, accompanied sometimes with sour or watery ridges, a formation of gases, cutting pressure of the heart and lungs and difficult breathing, headache, sick appetite, nervousness and a general played out, languid feeling. There is often a foul taste in the mouth, coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure this, a healthy digestion is the one necessary thing to do and when normal digestion is secured the catarrhal condition will disappear.

According to Dr. Harrison the safest and best treatment is to use after each meal a tablet, composed of Diastase, Ascorbic Acid, a little Nux, Golden Seal and fruit acids. These tablets can be found at all drug stores under the name of Sturges' Dyspepsia Tablets. They are not a patent medicine, but a natural food, and can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. J. C. Rogers of 719 Dearborn St., Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining of the stomach becomes inflamed and the poisonous discharge therefrom passing backward into the throat causes the throat to become sore and the stomach to become diseased. I have used Sturges' Dyspepsia Tablets for several years, and have found them to be a most effective remedy for all cases of catarrh of the stomach, indigestion, heartburn, and bloating after meals."

Send for little book, mailed free on stomach troubles, by addressing F. A. Stuart Co., Marshall, Mich. The tablets are found at all drug stores.

station before he fully realized that he was in the grip of the enemy. When Kelly awoke to the situation he found himself in a most perilous position. Oil Shares 10 Cents.

The Old Glory Oil Company, composed purely of Los Angeles people, has acquired title to 320 acres in the now famous Panoche belt in Fresno Co., situated in Township 13 South, Range 10 East. This property is in the heart of the great producing district that is making Fresno County and California famous. Wells of from 500 to 1500 barrels per day are being struck all around the Old Glory holdings.

First Well Started

and several others will be in operation inside of the next 60 days. The company is capitalized for 500,000 shares, par value \$1.00 each. One-half the entire capitalization, or 250,000 shares, has been placed in the treasury to be sold as development funds are needed. Organized under the laws of Arizona, the stock is absolutely non-assessable. The officers of the company receive no salaries for one year from date of incorporation, so that all funds derived from the sale of treasury stock may be used in sinking the wells. The Old Glory Company paid out with machinery for in full, and not one dollar of indebtedness against the company. The management is in the hands of some of Los Angeles' most prominent citizens. It can be safely predicted that Old Glory stock will very quickly reach par of one dollar per share, and in the hundreds and possibly thousands when oil is struck.

Price Goes to 20c

as soon as sufficient stock has been sold to purchase the second rig. Only a few days at the 10-cent rate.

BUSINESS.

FINANCIAL AND COMMERCIAL.

OFFICE OF THE TIMES.

Los Angeles, Jan. 30, 1929.

The following quotations on sales of citrus fruits in the East yesterday have been received from the Times and hence it is impossible for them to be published simultaneously in any other journal. When so published, they are simply printed from this paper.

ORANGES IN THE EAST YESTERDAY.

OUTLOOK NOT ENCOURAGING.

NEW YORK, Jan. 30.—(Exclusive Dispatch.) Eighteen thousand boxes of Sicily lemons sold today, and owing to cold weather and the scarcity of out-of-town orders the market declined 25 cents on fancy and 5 to 10 cents on extra choice, fancy 300s to 350s selling at \$1.70 to \$1.75; extra choice, \$1.60 to \$1.70.

Trade in dull and cold weather prevents shipments from being made. The steamship Briscoe with 15,000 boxes has arrived, but the cargo will not be offered until next Tuesday. The quantity of lemons in the market is estimated at 40,000 boxes being now en route for New York and 15,000 boxes for New Orleans.

Private hundred boxes and half boxes of Sicily oranges were sold; boxes in bad condition brought \$1.40 to \$1.50; half boxes \$1.50 to \$1.60; half boxes, \$1.50 to \$1.60.

The outlook for California oranges is not very encouraging. There are now fifty-two cars in sight, thirty cars of which will be sold tomorrow. Weather is predicted for tomorrow, followed by another cold wave, and the prospects are that there will be more oranges here than the trade can care for at remunerative prices to shippers.

Boston Citrus-Fruit Market. There was no sale of California oranges today. There were 1200 boxes of lemons sold at auction today at \$1.50 to \$1.60, average \$1.55; 100 boxes of Florida lemons sold at \$1.50 to \$1.60, average \$1.55; 100 boxes of Florida lemons sold at \$1.50 to \$1.60, average \$1.55.

There are forty cars of California oranges on the track. The weather has been very cold. Fruit has moved slowly. Snow is predicted tonight with much warmer weather tomorrow. As far as we can learn there will be only fourteen or fifteen cars offered tomorrow. A number of the cars now on the track are owned by Boston merchants, bought from the growers, and are holding them for improvement in the market. There is very little prospect for any improvement unless receipts should run lighter for the past week. Stock on the track has been accumulating. Lower prices will stimulate a demand, and we do not look for very much lower prices, although weather conditions will have a great deal to do with prices the next ten days.

MONEY IN EUROPE. A London letter in the latest issue of the United States Investor says:

The year has opened with a brighter spirit in the markets. Speculators are, however, walking very circumspectly, and there is no disposition shown to enter into large commitments. The tight squeeze at the end of December settlement will not soon be forgotten. Several small firms have since gone under. It has been a salutary lesson to small operators, and more than one large firm still reels from its effects. Another salutary lesson has been the heavy selling from Berlin, which has been the feature of the week. The monetary conditions in Germany are going to be considerably larger than in the past, and it is likely to continue to be a serious item in last year's financial history, and is likely to continue to be a serious item in last year's financial history, and is likely to continue to be a serious item in last year's financial history.

LOS ANGELES MARKETS. Receipts of poultry are rather light. A good demand continues and prices are firm.

But little game comes in, and that sells quickly at \$1.50 to \$1.75 for small game, and \$2.00 to \$2.50 for large game. A good demand continues and prices are firm.

tion known as the California Fruit Growers' Association, is in a bind, and bids fair to be a successful factor in the direction of cooperation among growers. There is no opposition to this movement, and if the growers are in earnest and desire to organize and cooperate there is no reason why this latest movement should be other than successful.

PINEAPPLES. Firms interested in pineapples, says the New York Commercial, have their buyers at the market in Cuba securing all the plantations possible. Private advices from Havana say that the price being paid for many of the plantations means either a strong market at high prices, or a big loss to importers.

The yield in Cuba this year will be much larger than last, and the quality promises to be much better. Last year, importers and handlers lost heavily because the fruit would not keep after arrival in this country. It seemed that the lack of cultivation caused them to rot more than ever before.

Most plantations have been better cared for this year, and it is expected that the keeping qualities will be much improved, as compared with last year. There is a change for the better of this character will be to cause business to increase and prices to rise.

In Florida the crop outlook is encouraging. If no frost occurs within fifteen days, the crop will be good. The fruit is in excellent condition and growers are quite enthusiastic at the prospect.

A few Florida pineapples have come forward already and show unusually good quality. Prices are high, but so far everything has moved out almost as soon as received. The approach of the more care for pineapples, relatively, than for oranges or other tropical fruits, will be to cause business to increase and prices to rise.

GENERAL BUSINESS TOPICS. BUILDING OPERATIONS IN 1929. Official statistics from twenty-one leading cities in the United States show a healthy revival of building operations throughout the country during 1929, according to the Construction Bureau of the United States Department of Commerce.

In 1929 an increase of over 60,000,000 cubic feet of lumber was used in the United States, an increase of 74 per cent, and in nearly every city in which a loss is shown it is the result of unusual conditions, such as strikes and other local troubles. The official figures for the past two years are given in the following table:

There are forty cars of California oranges on the track. The weather has been very cold. Fruit has moved slowly. Snow is predicted tonight with much warmer weather tomorrow. As far as we can learn there will be only fourteen or fifteen cars offered tomorrow. A number of the cars now on the track are owned by Boston merchants, bought from the growers, and are holding them for improvement in the market. There is very little prospect for any improvement unless receipts should run lighter for the past week. Stock on the track has been accumulating. Lower prices will stimulate a demand, and we do not look for very much lower prices, although weather conditions will have a great deal to do with prices the next ten days.
